

AAXSYS TECHNOLOGY

Why break the bank to manage your properties? Aaxsys is not just the affordable alternative to high-priced software, Aaxsys is the best web-based solution a corporate housing provider can buy.

With Aaxsys, you pay by volume, not in blocks, as your company grows. You don't have to buy and upgrade software, ever – and you're allowed multiple users on your account.

Aaxsys is web-based. Aaxsys functions on any internet-enabled device, including your mobile phone, so you don't even need an office!

Aaxsys is a time saver because it is multifunctional.

Aaxsys frees you from juggling multiple applications and spreadsheets. Your guest and property databases and operations all interface easily. Many tasks are completed with the click or two of a button. Templates for text and photos enable you to quickly post new properties.

Aaxsys is a 24 hour booking machine. It's easy and convenient for guests to search your properties by preferences anytime day or night from a search engine we put on your website.

Still need convincing? Talk to a live friendly customer service agent. They give great tech support, too (included with your membership!)

Just pennies per unit per day
